Auto Goes Off Bridge

F. H. Beck and Mrs. Emma Cullinan came near having a fatal accident when the auto which Mrs. Cullinan was learning to drive went off the Webber Schoolhouse bridge in Oxford, last Wednesday afternoon. The car turned over and lay bottom-side up in two feet of water. That they got out from under it without being crushed or drowned, is almost a miracle.

Mr. Beck's back was some injured and it was with difficulty he could keep his head above the water. He is able to be out but is pretty lame. Mrs. Cullinan escaped with a few bruises and a thorough wetting.

The drop from the bridge to the water is about three feet and how it could be made and they escape is a mystery.

Mrs. Jackson Clark

Mrs. Rose P. Clark, widow of the late Jackson Clark, passed away Tuesday, Oct. 14, at 2 o'clock at her late home on Bridge street. The last of May Mrs. Clark suffered a shock from which she partly recovered so as to be able to be around the house. Some few weeks ago she had another shock which left her practically helpless and the last few days she was in a state of coma.

Mrs. Clark was born in Sumner, Feb. 26, 1838, the daughter of Barnabas and Miriam (Abbott) Rowe. During her early life she resided at home and 1863 she married Charles Childs and lived in Peru. One daughter was born to them who married Charles Matthews of Peru. She died a few years ago. Mr. Childs died about thirty-five years ago and she came to South Paris and made her home with her sister, Mrs. Bolster, and engaged in nursing, later coming to Norway, and continuing in this work.

On October 12, 1894 she was united in marriage to Jackson Clark who died Feb. 27, 1914.

Mrs. Clark is survived by three brothers and two sister, Daniel Rowe, Herbert Rowe both of Sumner, Lewis Rowe of West Paris, Mrs. Ommitt Robbins of West Paris and Mrs. Lizzie Robbins of Norway.

The funeral was held Thursday at her late home on Water street, attended by Rev. C. G. Miller. Burial at Peru.

John Aspinall has received his discharge from the Canadian army and returned to Norway.

SAFETY FIRST AND SERVICE WANTED

"Safety First" is posted conspicuously in many places. It is right and proper. There is danger every where especially when electric power lines dangle in the air and burn off limbs that block the sidewalks. There is a disturbance at least when high-powered live wild electric wires keep the fire alarm ringing all night. The burning of shade trees in the night is spectacular, but expensive to the company furnishing power. It should not be permitted. On rare occasions it may happen, but it should not become continuous.

Clarence M. Smith says he has been disturbed by smelling smoke in his house and on chasing it down found it coming from exposed electric wires flapping in the trees. Several limbs have been lopped off, one 9 inches in diameter and another 8. This has been occurring for several years but more frequently this summer and fall. There must be neglect somewhere or somehow as it is common knowledge, the wires burning shade trees and giving trouble. The exhibition during the night of September 10, when the lights went out and the fire alarm rung pretty continuously all night is an example. The fire or cross circuit in the tree opposite the Beals Tavern and darkness followed is another. Hick crossing fire-works is another and the complete trouble down of the wire in Witherell Park last week when the telephone switch board burnt out and business in the factory was stopped. These are of frequent occurrence. Too much so. It shows incompetence or neglect. Probably both. Have the public rights? If so lets insist on getting them. We ask for "Safety First" and fair service and shall insist on getting it.

The wiring of the Oxford Light Co. is a menace in this community.

Edna May Bonney

After an illness of one week, Edna M., daughter of Ralph G. and May Wilson Bonney of 16 Tucker street, Norway, passed away at her home early Saturday morning. Diabetes was the cause of her death. Her age was 4 years, 10 months and 29 days.

She was born in Portland Dec. 12, 1914 and has lived in Norway most of the time since. Apparently her health was good until some ten days before the end and her indisposition caused no uneasiness for a umber of days. The attending physician accurately diagnosed the disease, but a specialist was consulted in Portland who could give no encouragement.

Edna attended the Methodist Sunday school and was in her usual place the Sunday before she passed away. Besides her parents, she leaves an older sister and two younger brothers.

The funeral was held at the home Tuesday at 2.30 p. m., conducted by Rev. F. A. Sullivan. Burial in Pine Grove cemetery.

Court opened Tuesday morning at the County buildings, South Paris, with an unusually large number of lawyers and spectators present.

After the customary formalities, prayer was offered by Rev. G. Howard Newton, formerly pastor of the South Paris Baptist Church and the grand jury impanelled as follows:

They retired in charge of Deputy Sheriff Niles after receiving full instructions as to their duties by Justice Morrill. County Attorney Dyer was ready to present his cases without delay and many witnesses were waiting in the lower corridor to testify. John H. Dennis, chief of police at Rumford, was on hand with a large number from his district, many familiar faces were in the lot.

The thirty traverse jurors drawn responded. Eight were excused for various reasons, they were George H. Allen, Hebron; D. R. Cole, Greenwood; Oscar N. Cox, Norway; Washington Heald, Buckfield; U. High School Fact and Figures

The present enrollment is classified as follows:

		including tuition pupils
Seniors	32	3
Juniors	41	3
Sophomores	30	6
Freshmen	54	11
	157	23

Total enrollment is 157 in a building arranged to accommodate 100. Desks in the assembly room are at a premium and all available space is used. The problem of handling the yearly increase in students is becoming a serious question without a definite answer under present accommodations. School population in Norway village has been increasing rapidly during the past twenty years, but action in providing suitable quarters has been more conservative.

Here is the situation in a nut shell. Next spring 32 seniors will graduate, leaving 134. The present VIII grade numbers 44 with 8 from the rural VIII grade to enter as freshmen in 1920. This will make 20 more than the outgoing class, therefore the 1920 high school enrollment would be 177 plus tuition students.

The outlook in 1921 is for an increase over these figures. The present VII grade has 42 pupils with 11 from the rural VII grade to enter Norway High that year. Without including tuition pupils the enrollment as forecasted will probably reach 200. The rates of increase continues through the lower grades, touching a period for Norway High ten years hence.

Past statistics show the falling off from these deductions will be of slight consequence. Former principal P. E. Hathaway is authority for the statement, "Facts will bear me out in saying that a larger percentage of grade pupils in Norway continue through to graduation than in any town in the state."

Cut off tuition students and make room for town pupils is not good business. Under present conditions it costs $6,500.00 per year to run the high school, cost per pupil is $41.40. Without the 23 paying tuition the cost would be $48.50 per pupil. Eliminating these students, the town must raise $951.40 yearly in addition to the present amount.

Only expense to the voters for out of town students is text books. Average cost per set $4.90, total per year, $112.70. A set lasts three years, therefore the actual text book cost is only $37.56 per year for 23 sets. Against this item the town collects $1,035.00 for tuition, making a neat profit from a wise investment.

Schools with high rating are a business asset in any town. The graduates carry a good name to college, or if the course ends with the high school diploma, they develop into more efficient citizens by having acquired the first principles of intelligent living. Education in the right direction is a powerful force behind good government and efficient citizenship. Grandfather's social and business methods are disappearing in the distant haze, new conditions demanding knowledge and an alert mind are here.

That the child has a fair start in school under healthful and congenial surroundings is more directly up to the parents. The state, city or town cannot furnish brains, but are doing all within their power to educate natural resources in cooperation with the fathers and mothers.

Whether or not we plod along with crowded conditions and fool ourselves into the idea that the future will care for itself is a vital question debatable in every Norway home.

Linscott-Grover

Marcia Ellen Grover and Clarence Eben Linscott of Lincoln were united in marriage Sunday afternoon at the home of the bride's parents, Mr. and Mrs. Moses Grover, on Tucker street. The bride is the eldest daughter of Mr. and Mrs. Moses Grover of Norway, who came here from East Stoneham several years ago. She graduated from Norway high school in the class of '19. Previous to coming to Norway, Mrs. Linscott was in Amesbury, Mass., for a year, and in Chicago for two years.

An Unknown Statesman

Somebody who once boarded at the Elm House, Norway, favors A. P. Bassett with his vision on the League of Nations. The postal card was mailed at East Rochester, N. H. It is annonymous except "H" and has to do with a speech of David Jayne Hill, L. L. D., former ambassador to Germany.

Mr. Bassett is at a loss to recognize the sender who says: "I'm in favor of a League of Nations with a few reservations." Failing to state his "reservations" we presume he wants less hours of labor and more pay incorporated in it.

Stella B. and Zilpha S. Prince who have been spending a number of weeks with relatives in Turner, have returned home. Zilpha Prince is improved in health.

Owing to the natural sharp slope of the lot one basement floor will be on lower level than the other but is reached by the proposed driveway. The present street entrance of the building at the front will be closed, a stock room established in the front of that floor, and the main entrance changed to the northerly side of the building.

How Bad Backs Have Been Made Strong —Kidney Ills Corrected.

All over Norway you hear it. Doan's Kidney Pills are keeping up the good work. Norway people are telling about it—telling of bad backs made sound again. You can believe the testimony of your own townspeople. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable, if the kidneys act too frequently, or passages are painful, scanty and off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Norway citizen's advice and give Doan's a chance to do the same for you.

E. C. Libby, Sanborn St., says: "I had backache a great deal and it annoyed me to do anything. My head ached frequently, too. I also noticed little specks before my eyes and my sight blurred. I used various medicines, but it was left for Doan's Kidney Pills to give me lasting results. Since using them, I have had no return of the complaint and I have great confidence in Doan's."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Libby had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 41-42

Husking Bee

Husking bees are very fashionable in this section this fall. Oliver S. Chapman had a gathering of huskers at his home on Saturday evening. Besides the nearby neighbors and friends, there were guests from Kezar Falls, Woodfords and Lynn, Mass., making 32 in all.

As Mr. Chapman lives alone, his sister and sisters-in-law attended to the supper for him. Each one cooked some part of the supper and as each one tried to make her cooking the best, the supper was very fine and it was a very hard problem to decide which tasted the best.

After supper the party had a social good time with a little music until midnight when the folks began to depart for their homes.

Curtis Chapman had a husking bee a week ago Thursday. As it was a rainy evening, only 17 were able to come out, but there was nothing lacking for merriment. About 65 bushels of corn were husked. Supper was served by the hostess, followed by singing and violin music.

Monday, Oct. 13, was celebrated as Columbus Day at the Black schoolhouse with appropriate readings by the scholars and a flag raising.

Eunice Durgin is visiting Mrs. Wm. Day.

Milo Morrison was in this vicinity Saturday with a line of winter clothing.

Mr. and Mrs. Guy Durgin of Portland were guests of his uncle, John Bradeen, over the week end.

The Veterans are expected to be at the Corps headquarters Saturday morning, October 18th.

Otho Holden and family went to Lowell, Mass., for his grandmother, Mrs. Augusta Holden, who had been visiting her daughter, Mrs. Florence Rockway, for several weeks and returned Sunday. Ernest Caldwell of Stoneham, Mass., came with them.

Oxford High School

The Seniors and Juniors of Oxford High School served a baked bean supper in the Methodist vestry, Tuesday evening, Oct. 7th. It was well patronized by the town people and all agreed it to be a success.

For more than two years the students of the high school have been working to pay for a piano. The proceeds from this supper will enable them to furnish the payments.

The students deeply appreciate the financial assistants which made it possible to secure this piano and in a comparatively short time turn it over free from debt to the school.

There is more Catarrh in this section of the country than all other diseases put together and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

Corns Come Off Like Banana Peel

"Gets-It" Leaves Toe Smooth As Your Palm. Never Fails.

Ever peel off a banana skin? Well, that's the way "Gets-It" peels off any corn or callus. It's a picnic. Nothing else in the world will do it

"2 Drops of 'Gets-It,' Good-bye Corns!"

but "Gets-It" because of the new secret principle in the "Gets-It" formula. "Gets-It" does away forever with "contraptions," "wrappy" plasters, ointments that rub off, blood-letting knives, and scissors that snip into the "quick." "Gets-It" eases pain. It takes but a second or two to use "Gets-It." There's no fussing or trouble. It dries immediately. You put your stocking right back on again. Your corn will come off painlessly in one complete piece. That's common-sense. It never fails.

"Gets-It," the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. M'f'd by E. Lawrence & Co., Chicago, Ill.

Sold in Norway and recommended as the world's best corn remedy by F. P. Stone.

Powerful Pile Remedy Discovered

Has Never Failed to End Most Obstinate Case of Piles in Few Days

For years it has been proved that so-called external remedies applied to or inserted in the rectum cannot cure piles, and at the best can only give temporary relief. Surgical operations also do not remove this cause, but simply the formation.

This wonderful prescription, known as Miro Pile Remedy, is so efficient in the treatment of piles, that even chronic cases of from 20 to 30 years standing with profuse bleeding have been completely cured in from three to ten days. Think of it! Just a few doses of a carefully balanced prescription and the most persistent case of piles is absorbed, never to return.

All pharmacists dispense Miro or can get it for you on short notice. Surely it's worth the little trouble to obtain it to be rid of piles forever.

IMPORTANT—What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in such cases it is not necessary to take the internal prescription.

Talk about adventures!

Men in the Navy come home with the kind of experiences that most chaps read of only in the books.

Here's your chance!

Uncle Sam has, as you know, a big Navy and gives red-blooded young fellows like you an opportunity to step aboard and "shove off".

What will you get out of it?

Just this:

A chance to rub elbows with foreign folks in strange parts of the world.

The chance for good honest work on shipboard—the kind of work that teaches you something real: the kind of work that puts beef on your shoulders and hair on your chest.

You will get 30 care-free vacation days a year, not counting shore leave in home or foreign ports.

You will have the kind of comradeship in travel that sailors know.

You will have regular pay, over and above your meals, lodging and your first uniform outfit —good stuff all of it.

You can join for two years. When you get through you'll be physically and mentally "tuned up" for the rest of your life. You'll be ready through and through for SUCCESS.

There's a Recruiting Station right near you. If you don't know where it is, your Postmaster will be glad to tell you.

To any Father and Mother:—

In the Navy your boy's food, health, work and play, and moral welfare are looked after by responsible experts.

The "Autometric" Carburetor

YALE TRADE MARK

Made by The Yale & Towne Mfg. Co.
STAMFORD CONNECTICUT

What is a sweet running motor?

IS it one that runs along with a smooth even flow of power,

Like this? !

Or one that skips, backfires, vibrates and shakes itself, the steering post and you,

Like this? !

An "Autometric" Carburetor on your car will reduce engine vibration to a minimum.

It automatically feeds the correct mixture for *all* speeds for *any* car. And the mixture is fed to the cylinders as a hot, dry gas. Not as a partially atomized spray or mist.

Each cylinder gets just the amount of fuel it can use *and no more*. Each cylinder gets the same impulse.

That's one of the reasons why the "Autometric" Carburetor is a product worthy of bearing the trade-mark "Yale."

Other reasons are that with an "Autometric" Carburetor you get more power and greater flexibility of control, up to 30% more mileage from your gasoline, *at least* 20% less gear shifting.

Step in and let us arrange to have your own garage man put an "Autometric" on your car on approval. Then you can prove to your own satisfaction what real driving comfort is.

BOYS' AND GIRLS' CLUBS

For excellence of their vegetable display, originality and variety of stage action and volume of club enthusiasm the boys' and girls' clubs of northern Oxford, Friday set a pace that other county contests in the University of Maine extension series will find it not very easy to follow.

It was the first county contest to be held in Maine this year. University extension leaders whose work is Statewide were there, to assist County Agent Yeaton and enjoy the fun. George N. Danforth, agricultural teacher, athletic instructor and all-round utility man in the schools of Rumford, was in charge of the program, assisted by Superintendent of Schools Leroy Williams. Miss Foley, teacher of music, and all the teachers in the competing schools.

The club displays were in readiness and the judging all done by the middle of the afternoon. At 6 o'clock lunch was served by girls of the domestic science classes, under charge of their instructor, Mary S. Coombs. Then followed the public exposition and the stage program of folks songs and dances, costumed games, drills and dialogues. Little Indians in war paint and feathers and carrying tommy hawks danced to weird music; girls with their heads done up in yellow paper to resemble pumpkins went through a clever drill. There were solos, duets and choruses. One of the striking features was a presentation of scenes from "Hiawatha's Wooing, a serious-minded little lad of 12 reciting the verses as the acting progressed.

Margaret McCarthy, age 11, daughter of Judge McCarthy, was awarded a special prize for the best story submitted relating to the summer garden work. Adolph Talbot of Rumford, State champion in the garden contests last year, was top-notcher in this competition. Stewart Martin won a special prize for the best exhibit of potatoes.

The judges decided that the best school exhibit was that of the MacDonald school, a little four-room building in Rumford's Italian quarter. It was easy to see why the Italian men and women came in such large numbers to the town hall when the evening show was in progress. Rumford's Holland school captured second prize and the Virginia school third.

The Rumford Chamber of Commerce contributed $100 and the Rumford Trust Company and Rumford National Bank $50 each for prizes. This total amount was distributed among all the contestants, four classes of prizes being awarded for each variety of vegetables. Every child eligible to participate in the competition carried home some token of success.

It was a great time for Rumford and northern Oxford. Saturday at Norway the clubs of central Oxford held their annual contests. Other county contests throughout the State will follow in close order.

NEWRY

Mrs. Fred Kilgore

The people here were much shocked to learn of the sudden death of Mrs. Fred Kilgore, a former resident of this town. The funeral was held at her home at Northwest Bethel and the remains were brought here for burial. She leaves a husband and daughter besides a large circle of relatives and friends to mourn their loss. The many beautiful flowers were a silent tribute to show the respect in which she was held by all.

A party of four young ladies enjoyed a very pleasant walk from Bethel to Upton. They left Bethel after dinner Saturday, camping at Poplar Tavern that night, making the rest of the way Sunday morning. One thing is evident, our modern girls do not lack courage.

Announcement is made by Mabel Connor, president, that the annual convention of the Maine Woman Suffrage Association will be held on Friday, Oct. 17th, at the parlors of the Columbia Hotel in Portland.

Plans include regular business in the forenoon and an address open to the public, in the afternoon, to be delivered by Mrs. Nancy M. Schoonmaker, who is from Connecticut. She was a practical looking woman, her face softened by a contented life among young folks. WOODSTOCK

Freshman Reception

A most enjoyable occasion was the annual Freshman reception in the Grange Hall Friday evening. The program opened with a piano solo by Christina Willard, '22. Then followed the words of welcome from Ralph M. Bacon of the school board, a recitation by Ethel Wyman, '22, a solo by Gwendolyn Bartlett, '22, recitation, Marguerite Dudley, '22; solo, Edith Buck, '22; reading, Ida Powers, '21 and a piano solo by Rowena Ring, '22. Refreshments were served by the girls. Mr. and Mrs. Ralph M. Bacon, prin., and Mrs. Homer E. Crooker, P. S. Andrews, Mansfield Packard, Harry Packard and Robert Cushman were in the receiving line.

The new Chamber of Commerce held a house warming in their rooms Saturday evening. The rooms have been well furnished and make a cozy and comfortable home for the organization. After the regular business session, coffee and crackers were served. The regular meetings of the Chamber will be held on the first and third Wednesdays of each month while the Directors will meet every Thursday.

The plans for the celebration for the returned soldiers are well under way and every indication points to the biggest celebration ever held in Woodstock. Several large guns from the forts at Portland have been secured and will be on exhibition. The committee in charge of the athletics have arranged a fine program for the morning. Several celebrated speakers have been secured. A reception and dance will be held in the evening. The date has been set for Nov. 1.

All ex-soldiers interested in forming a local post of the American Legion will meet in the Chamber of Commerce rooms next Friday evening. Plans are well under way for the formation of the post if there are enough boys interested.

OTISFIELD

Mrs. Rose Edwards and her daughter, Mrs. Frank Latulip have been visiting relatives and friends in Standish the past two weeks. They returned home Wednesday.

Mrs. Nellie Denning and two children of Medford, Mass., are visiting her parents, Mr. and Mrs. Frank Latulip and family.

George Hoyt is working for John Symonds at Webbs' Mills making shook.

Mrs. Gladys Hoyt picked a bunch of violets, Oct. 9th.

Elmer Latulip and wife and Mrs. Nellie Denning visited friends in Standish recently.

Gene Edwards is sawing wood for Fred Pierce with his gasoline engine.

Ed Winslow took Jason Little and wife and Mrs. A. H. Smith to the White Mountains in his auto one day last week. It was a very cold day but they enjoyed their trip very much.

Elmer Latulip has built a new Silo and has filled it with ensilage.

Mrs. Arthur Smith and two children are visiting relatives in Norway.

Maggie Edwards purchased a cow and calf of Wyatt Edwards recently.

SOUTH ALBANY

Mr. and Mrs. P. B. Henley of Lovell have been spending the past week with their daughter and family, Mr. and Mrs. Walter Canwell. They also visited with their son, Elmer Henley and family. Mr. Canwell carried them to their home, Saturday and helped them harvest their garden vegetables.

John McAllister is hauling his apples to Fryeburg.

Helen and Richard Holt visited their uncle and aunt, Mr. and Mrs. George Holt at North Waterford, Saturday and Sunday.

Elmer Henley has several men at work for him picking and packing apples. Roland Littlefield is making barrels for him. He has sold them to Eugene French of North Norway.

Will McAllister has bought a new horse to mate his big gray one. He bought it of Andrews at Norway.

C. J. Eastman and son, Andrew Eastman of Lynchville, have bought Merritt Sawin's apples and are picking them.

Mr. and Mrs. Merrtt Sawin were at W. E. Canwell's, Sunday.

Mrs. J. A. Kimball has been visited by her brother, Alcander Cross from Pawtucket, R. I. Mr. Cross is a conductor on the street cars in that city and has held the position for about 40 years. Their nephew, Ernest Cross of Portland, brought him up in his car and they visited at Mrs. Kimball's home until Monday.

Ernest Brown has been hauling cider apples to South Paris for Mrs. Porter.

Marjorie Canwell picked a beautiful bouquet of old fashioned "Ladies' Delights" October 13th. The little faces were as fresh and bright as though it were June instead of October. These pretty little flowers are very seldom seen in the present day gardens as their relatives, the pansies, have become so common. No pansies however large they may be, will ever be so wonderful to us, as were the Ladies' Delights to our childish eyes.

Mr. and Mrs. Frank Cook of Norway visited her uncle, James Kimball, Sunday.

Mrs. Hattie Heald of North Waterford visited her sister, Mrs. H. B. Horr, Saturday. Mrs. Horr visited Mrs. Heald.

Mrs. Holden Sawin called on Mrs. Herman Holt, Thursday.

The frequent rains and the high winds are fast taking the leaves from the trees and covering the ground with a carpet of gold. They remind us of a poem printed in the Advertiser several years ago, the title of the poem was "Gathering Leaves" and was written by Mrs. E. T. Judkins of North Norway. If Mrs. Judkins would kindly have it re-printed, it would be a great favor and would give pleasure to many readers.

W. E. Canwell shows us a potato raised by him this year which weighs just three pounds. The name of the variety is unknown to Mr. Canwell. He has many very large ones besides.

SOUTH OTISFIELD.

Frank Edwards and wife spent the week end at Fletcher Scribner's.

Howard Ames is working for George Jillson on his farm.

George Jillson and family went to Norway, Monday, on business.

Harry Brazier and Loren Stearns attended the fair at North Waterford.

Lowell Cleveland and family of Norway are living on Scribner's Hill.

True Winslow is improving in health.

Fred Brooks has been helping Walter Hamlin.

Forest Edwards is shipping some apples at Oxford depot.

A neighbor sagely remarked that "the average milk pail refuses to upset until it is full." But why upset when it is empty. Wasted energy is reprehensible these days.

Davis, the wood worker, will appear in Norway Opera House Friday evening, Oct. 17. This is the first in a series of four entertainments by the Cait-Alber Lyceum and Chautauqua Bureaus, under the auspices of Norway High School. One entertainment a month for four months is the present schedule and the talent is high class in every particular.

L. M. Carroll of the Carroll, Jellerson Shoe Co. is behind this course financially and will make good all deficit. He has leaped into the game with his usual energy and the students have become infected with the desire to sell tickets. The net proceeds will be applied to athletics, particularly to completing the gymnasium and equipping the same.

Course tickets are selling like hot cakes under the systematic canvass of the hustling students. In addition to his first offer, Mr. Carroll has agreed to give a generous cash sum to the profits, if the workers will "go after 'em" like any business organization.

Frank Morse of this place, Chester Ham and Chester French of Northwest Norway attended the meeting of the boys' corn club Saturday at grange hall, Norway.

Eva and Mary Morse were home from the village Saturday night to attend the school social.

M. A. Hersey, Ned Cox and E. T. Judkins attended a meeting of the I. O. O. F. at South Paris.

School Social

The school social held at the home of Mr. and Mrs. C. D. Morse was a very pleasant affair and successful in every way. There were about eighty present, coming from nearly every adjoining school district. The school gave a nice entertainment consisting of readings, recitations, a song and a dailogue all of which were well rendered.

A. M. Dunham was present and gave a violin solo with encore. There was also music on the victrola. Ice cream, cake, popcorn and candy were then placed on sale from which was realized the tidy sum of $13.30.

Later the young people gathered with Cherry Noble at the organ and enjoyed a half hour of song, after which all repaired to the lawn where jolly games were played while Mr. Dunham dispensed music from the doorway.

As the hour grew later, all returned to the parlor where Dorothy Noble and Mr. Dunham gave some fine music on the violin and organ, playing many of the old familiar pieces while many joined their voices in song. The hour of twelve arrived all too soon and all departed for their several homes, many asking when the next social was to be and expressing the wish that it might be soon. The parents and others have been very loyal in their support and the school now has funds to purchase a desk and a chair, both being very much needed.

Mrs. Eugene Andrews of Brunswick was the guest of Mr. and Mrs. John Heald last week. She attended the Pleasant Pond Grange Fair. Her husband, Dr. Eugene Andrews, was intending to come, but he had two very sick patients and could not leave them.

Mrs. Eva Millett and children are moving into James Boyle's rent.

Mrs. Emily Young is housekeeper for E. W. Chandler.

John Heald was 84 years of age Oct. 6. The neighbors remembered him with fruit and flowers. His one brother, who resides in California, sent him a remembrance.

Everyone who has apples, are trying hard to harvest them before another frost comes.

Pleasant Pond Fair

Grange cattle show and fair was held at West Sumner Wednesday, Oct. 8, although it was a cold day, there was a good crowd. The building on the newly acquired grange lot given the Grange by Rev. Lucian Robinson, was transformed into an exhibition hall and a large assortment of fruit, vegetables, canned goods, food and fancy work was very tastefully displayed. Aunt Mary Jane Pulsifer showed a very old quilt made by the Indians, also a pair of hand knit stockings worn by her mother 112 years ago.

In front of the building a tent was erected where ice cream, soft drinks, peanuts, candy, and cigars were sold near the hall, many of the patrons and spectators were afforded amusement by a bowling alley and ten pin game.

Dinner and supper was served in the vestry by the grange ladies to a large number. Horse pulling in the forenoon was the center of attraction. 1st premium in both classes was won by August Viitala, 2nd by M. C. Barrows, 3rd, H. L. Bisbee; 2nd, Kenneth Sampson, 3d, M. C. Barrows.

The baby show in the afternoon was well attended. The ball game between Mountain Grange and Pleasant Pond Grange was won by Pleasant Pond Grange score 17 to 8.

The space allotted to the fancywork was a center of attraction. Among the exhibitors were Edith Newell, Cora Boyle, Amy Farrar, Nellie Barrett, Effie Chandler, Emma Barrett, Ella Chandler, Minnie Barrett, Elizabeth Newell, Phila Bosworth, Nellie Starbird, Emily Young Zelda Farrar, Luella Beckler, Gladys Knowles, Bertha Cox, Lizzie Keene, Bertha Barrows, Elsie Barrows, Rosetta Ryerson, Lillis Pulsifer, Maimie Chandler, Aunt Mary Jane Pulsifer, Iola Chandler, Hattie Swett, Annie Chandler, Betsy Robinson and Norma Barrett.

Many looked with longing eyes at the food case where was displayed samples of Sumner's good cooks. Mounted deer heads and fish shown by Asa Robinson added to the attraction of the Hall, the building was not large, but every available space was utilized. Mrs. Rosetta Ryerson donated a beautiful table runner from which they realized $19.50. Harold Hollis was the lucky winner.

A dance in the evening, music by Shaw's orchestra, brought a very pleasant and profitable day to a close. Nearly $150 was realized to go toward building a grange hall.

More sports and track events were planned but the day wasn't long enough, so were omitted.

CATARRH DOES HARM

Whether It Is of the Nose, Throat, or Other Organs, Get Rid of It.

Catarrh of the nose or throat when it becomes chronic weakens the delicate lung tissues, deranges the digestive organs, and may lead to consumption. It impairs the taste, smell and hearing, and affects the voice. It is a constitutional disease and requires a constitutional remedy.

Take Hood's Sarsaparilla, which by purifying the blood removes the cause of the disease and gives permanent relief. This alterative and tonic medicine has proved entirely satisfactory to thousands of families in three generations.

If there is biliousness or constipation, take Hood's Pills,—they are a thorough cathartic, a gentle laxative.

Cold relief

A common cause of many colds is the sudden checking of the unconscious perspiration by exposure to a change of temperature. Colds whether taking the form of Coryza with sneezing, running nose, and perhaps sore throat, or with chilly and feverish symptoms, should never be neglected in the earliest stages. Serious illness often results from such neglect.

It is well to get early to bed, to get the body well warmed, and most important to have the bowels move freely. There is no safer or better remedy to use at the beginning of a cold than "L. F." Atwood's Medicine. Two to four teaspoonfuls will quickly relieve congested conditions, drive out impurities from the system and ward off further trouble. Always keep a bottle in the house. Any dealer will supply you for fifty cents. If you have never used it, write today for a free sample to the "L. F." Medicine Co., Portland, Maine.

BASEBALL SERIES

Norway 5; Ward 8 Tigers 4

Norway defeated Ward 8 Tigers in a spectacular finish of the rubber at the County fair grounds Saturday afternoon. The largest crowd for the season assembled to witness the ending of a sensational series which could not be doped accurately until the last batted went into the discard. Billy White and his big league outfit tamed the Tigers after one of the bitterest fights seen hereabouts in years. Everybody declared it a great show, therefore everybody had the right hunch. It was fast and close playing with sectional feeling on the hair trigger. The crowd was like a keg of powder which needed only a spark to blow up the whole garrison.

The world series in the majors had nothing on the bush-leaguers. The peculiar stage setting added tang to the show. Both teams represented Norway and had played independent ball during the summer. Rivalry eventually brought the gamesters together, and it developed into a race to secure the best talent for a decision. This last crowning event caused to be assembled the best stable of nifty artists "ever shown under canvas" as the limber tongued front door grinder would assert. They were peaches gathered from the four corners of Oxford County plus Massachusetts territory. Not a joker in the pack. All were seasoned veterans with insignia for meritorious service. Each had passed through more than the once over, and went onto the field as registered stock. Therefore, the Norway fans, and sports who drove over muddy roads from Bryant's Pond, West Paris, Buckfield, Oxford and other towns were fed upon cream served in a manner to satisfy the most fastidious sporting shark.

Excitment ran riot! You have said it without any misstatements. The ice commenced to break before either team opened any argument in the field. Two umpires were needed, Barb Austin passed the requirements, but the second candidate proposed was not acceptable. After the fat had been chewed a while, Harley Rawson of Buckfield consulted to sacrifice himself in the ticklish place. This move ironed out deep creases and the first riot symptoms were smothered for the time being.

The game started with each team supporters well sorted out. Norway was a favorite spot along third base line while the Ward Eighters assembled near first. Several officers patrolled the lines and kept the restless "bugs" from crowding the game over the line into our sister town. Rooting there was, accompanied by blank cartridges and many noise producing implements. Often when timely hitting raised a rumpus among the excitable enthusiasts, the grounds compared favorably to an Indian settlement in the grip of crazy medicine-men. Pet corns were abused, the lame walked, the blind could see, and many who claimed profound dignity capered like lambkins in springtime. It was great tonic and opened the spigot for the ever present comedian in monologue.

Game Described

Manager White won the toss from Manager Scott Palmer and Norway took the field. Neither team got a runner beyond sack number two base until the second inning when Norway opened the show with a pair of earned runs by Penley and Trafton. Penley the first batter, up-slashed a grounder into left and anchored to second on the throw in. Trafton scored him on a fly into deep center, was forced to second when Stewart walked, then capered home during Purington's wallop into right near the foul line.

Purington copped the next run for Norway in the fifth inning. He landed safely once again in the right garden; made second safely when the ball was relayed in; landed on third when Marcotte laid down a scratch hit and on Shepard's bunt juggled by Fuller at short.

Trafton earned a trip in the sixth with a two bagger; was assisted to third when Stewart singled into center and crossed home as Purington laid out a fungo toward center.

The seventh inning was productive of one run and this closed the deal. With two gone, Penley was winged by Hunt and went around the circuit on singles by Gaudette and Trafton.

Ward Eight Tigers failed to land a runner on third until the fifth session. In this inning, Harry Rowe laced a beauty into right and found second before the excitement subsided. A fielder's choice from Roberts' bat and Gaudett's wild throw sent Rowe across. Ward 8 tied the score and jumped one run to the good in the sixth. Billings walked, Lafrance sacrificed. Harold Pratt put down a neat bunt which went into a successful play to catch Billings at the plate. Pratt stole second and sprinted home safely when Fuller steamed a screecher into left. This play tied the game and Packard's sacrifice and another single by Rowe sent Fuller across the platter, making one run to the good. The crowd went wild during this inning and several times Umpire Austin narrowly escaped destruction. This rally was the last successful struggle to go the limit. An opening was made in the seventh on Billings' single and during the ninth when Rowe again figured with the wagon tongue for a single. Both runners drew chunks of hard luck by stepping into forced plays for put outs.

Rowe, Trafton, Fuller and Purington were the high strike players during the game and found little trouble connecting with Hunt or Stewart. Their hitting was principally of the Texas league variety, supplemented with deep ones lifted away from the fielders' reach for important gains.

Among the prominent features bristling out during the exciting play was almost perfect support given each twirler. Both outfits hit freely, but Hunt had it over Stewart by several laps when effective box generalship is mentioned. His control was gilt edge and no time could he have been charged with "going up." HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I.—"I was all run down in health, was nervous, had headaches, my back ached all the time. I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for women, so I tried it. My nervousness and backache and headaches disappeared. I gained in weight and feel fine, so I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was."—Mrs. ADELINE B. LYNCH, 100 Plain St., Providence, R. I.

Backache and nervousness are symptoms or nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment.

Women in this condition should not continue to drag along without help, but profit by Mrs. Lynch's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound—and for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.

MOOSEHEAD LAKE LETTER

Note—This was written at divers and sundry times while the boss was stopping at Sugar Island on his last visit.

I spoke in my last letter of 25 trout coming from Mountain Pond. I did not say what it cost in money to get these fish as I then did not know. The doctor told me the expense of the day. He paid John Bridge, guide, $5.00; Mr. Greenleaf, two trips to Beaver Creek, $4.00; for "dinner out," $1.65; for extra leader and 6 flies, $1.00, and 3 Palmacheenies, $.75, making a total of $13.40. He also paid a day's board at the camp of $3.50 and put in ten hours of hard work besides two hours and a half of leg weary trail traveling. He fished 3 hours and the balance of the time was spent in going and coming. Hence, grand total of expense, $16.90 for 25 fish, which probably weighed eight pounds. They cost him more than two dollars a pound. He called it great sport. One-fourth the trout were given to the guide and the balance consumed here and we all pronounced them extra fine, good, delicious, etc. For flavor, nothing equal to Mountain Pond trout!

I am told on good authority a man and wife at Kineo spend fifty dollars a day for fishing. We dined together or on the same lunch grounds at the head of the Island last June. Surely they were great enthusiasts. I saw them last Wednesday, (Sept. 22) at the head of Sand Bar Island, fishing when the wind was blowing a gale and it was a struggle to keep canoes right side up. They were serene and happy and apparently did not know the wind was blowing, but their guides did. It was with difficulty they could handle the canoe.

Their outfit consisted of two canoes, two guides, a decked in naptha launch and engineer. The boat was big enough to comfortably live in. It might make a good home when anchored in a sheltered cove. No doubt it returns to Kineo every night so that the day's catch can be seen and the story told of how it was done. This is called: Fresh water sporting de luxe. I think they came from Buffalo, N. Y., and are Mr. and Mrs. Gaston. They have been coming here each season, but one, since their marriage some years ago. I'll not say how many as the item may get to them and they might be offended as they yet pass for newlyweds. Mr. Gaston gave me a Kitson fly and requested I give it a good trial. This I did, but without results. Will try it again next season. I was told they expect to go to the Yellowstone Park next season, but will so manage it to get the Spring and Fall fishing at Moosehead Lake.

I got three trout Friday but not on a fly. It was done by trolling in deep water. One was so small I returned it to the water. The two killed weighed 1¾ pounds dressed. Not like what it is in the spring.

Walter has got interested in cards and accuses Elgin of "stacking" when he deals.

I managed in 12 days to get 8 fish, but did not fish persistently. The eight possibly weighed a dozen pounds. The scenery, air and rest was great and the sunset magnificent. It looks altogether different in October than in June. Nature is preparing for a long sleep and birds and animals are not over joyously happy. The crows gather in bands of 20 to 40 and circle silently about while the ducks, gulls and loons seem more distant and shy. Loons have not lost voice. They screech and dive and call to each other in a sociable way.

I was told Kineo had over 500 guests during August. The big house is now closed and they have 15 in the Annex. Everything about the Point is kept up in nice shape. No floating castles are now to be seen in the cove. I managed to find a fairly good specimen of Indian handiwork on stone. It was of the tomahawk variety. An iron tower has been put on the mountain back of the house.

L. W. Weston, formerly of Bolster's Mills, was seen at Rockwood. He has just commenced on his second year. He is clerking in a general store for the Ricker Hotel Company. The manager of the store is Frank P. Reeves, who used to travel on the road and stop with John Woodman at the Beals Hotel. Of course he stocked up with Economy Handles.

The talk about trout coming to a fly in September is a myth. None came to mine. A lone chub came up, looked at it, made a splash and disappeared in the water. That was all.

Have started a new enterprise. It is the making of cedar fans. They will go along well with the can handles I'm selling. As an inducement, I can give a Cedar Split Fan with every four dozen handles sold. Have whittled out more than twenty and Mother claims them all. I suppose she is to decorate a room or maybe sell them at church festivals to raise money for the support of preaching or something of that nature. The fans are fit and good lookers. Am to take an armful of cedar home with me to work on this winter.

Beavers have been working not over a mile from Greenleaf's camps. They are on the back side of the island near Dunn's boat house. A poplar tree eight inches in diameter has been felled and dropped into the water. Many of its limbs have been cut and pealed.

"Old Ephraim" has been seen recently. He is white-sided with age and has been roaming over the Island for 22 years to Elgin Greenleaf's personal knowledge. Pat Cummings of Norway caught him stealing peas in the garden ten years ago. Elgin says he won't kill him. He is too tough to eat. I saw his foot prints the other morning. They are as big as an ox's and have pointed toes. That is as near as I ever came to him. He drove Amos Thibodeau into the bog seven years ago and made Bill Burgess take to water for two days. Old Ephraim is an awful critter! I don't go out much after dark.

I have found "tungsten", at least that is what Elgin says it is. I shall take it to the Bickford Brothers at Norway and have them pass on it. I think it is a gem. Plenty of clam shell here about, but no pearls found as yet.

Possibly some of our readers may wonder how we pass a five days' heavy south wind on Sugar Island. It is easily told. I watch the waves roll in and lash the wharf and smash in fury on the shore; the sea bird, Hattie, tosses and frets and yanks at her moorings; the leaves rustle and pile in windrows in sheltered places while the fire burns and crackles cheerful in the open stove. Dry spruce and cedar drift wood sends out a continuous volley of explosions and I'm kept busy picking and sweeping what gets through the screen. I write, read, whittle and think; examine the Indian lore of the stone age and speculate as to how they were made. I try to hue from the flint a spearhead or utensils in imitation of those I have and fail. Fire and water, blow-torch and hammers are used and for an instant I think I have the secret only to find I have not as the flint will break in any way it sees fit, regardless of what I do. A drop of water on hot flint and a quick blow with a hammer gives the best results. The water and blow must come instantly and a chip of flint flies out, but it is a poor imitation of a lost art. Maybe the work was done this way. Who knows? I don't. Leverage is tried, but it's no good, I can't make it work. Heat and water give best results.

I do make fair looking fans out of drift cedar. Some of them are turned with twenty-five splits and in this no doubt excel the Indians of a past age. I have more comforts than they had anyhow, but I'd like to know how they worked Kineo flint. Possibly some of our readers can tell me. I'm willing to be shown.

Mother visits Mrs. Greenleaf every afternoon at 3 o'clock and I have a suspicion they play cards as I overheard them talking about "15-2 and a go" while passing their camp the other day. And, too, "chips" have been known to fall from their pockets in the dining room. Miss Gertrude Hashay, the table girl, told me this. I cannot tell for sure as Mother takes care of her own finances. I let her have some money to keep for me when I came to the Island and if she returns it intact, I shall believe there is no truth in this story.

Lou W. Weston of Rockwood came here Sunday and brought with him one of the clerks in the store where he works. He came in Robt. Stain's "Scoot" and of course Bob was with him. The boat is built on the lead pencil plan. It is long and narrow and looks like it would as soon roll over as not. But it don't. At least I was so informed. It gets through the water from 17 to 20 miles per hour with very little fuss. The boat originally cost over $2,000.00, but Bob bought her for a song and has been busy ever since.

Lou invited us to go to Spencer Narrows and have supper with him at Stevens' Camps and promised to bring us back early in the evening, but we felt a 20 mile ride in such a rakish looking craft was a little too much. Lou says Mr. Stevens at one time lived in Norway or near there. He is related to Mrs. Cyrus Tucker and calls her aunt.

Lou says the current price for whiskey about Rockwood was sixteen dollars a gallon. It could be obtained at that price. Liquor filters in here from Canada or Boston, I do not know from which place, but it is here.

September 28th (Sunday) first day we have got on without a fire in camp. It has kept Mother and Walter busy piling drift wood on the open fire which burns with a roar and explodes like a Fourth of July celebration. Somehow I enjoy it. The camp seems lonesome without the noise.

Elgin is planting his garden. It does better when planted in the fall. That is what he says. He also is tapping maples and getting ready for sugar making. By so doing, he gets more time for Spring fishing. This is what he told me.

Note—In the next installment, Mr. Sanborn has something to say about his "find" of Indian Implements of the stone age. He tells when and how found. He also writes an editorial on Economic Revolution or in the Maelstrom of Progress. You should read it.

OLD AGE STARTS
WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs.

This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the weaknesses and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haarlem Oil is inclosed in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a small swallow of water. The oil stimulates the kidney action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haarlem Oil Capsules will keep you in health and vigor and prevent a return of the disease.

Do not wait until old age or disease have settled down for good. Go to your druggist and get a box of GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand. In sealed packages.

Imperial Singing Orchestra

Dancing with music furnished by the Imperial Singing Orchestra will fill the Grange hall with song and gladness, Friday evening.

These megaphone melody makers are favorites wherever they appear. They render the classy musical hits in a manner several leagues ahead of many combinations trying to break into their class. The rhythem is perfect for dancing. It is nifty and jazzy without a saw filing jargon, voices and instruments blend to a shadow. You can't resist skipping about when the music starts.

As a concert team they are it. Vocal solos and choruses from this male quartet with accompaniment are attractive to auditors, who wouldn't dance a single step. The organization is a real joymaker to those who appreciate the modern syncopation handed over with a punch, but in good taste.

CENTER LOVELL

Lang-Davis

The numerous friends who have learned to value the presence of the ever cheerful face, the deep thoughtfulness of her native mind, and the ready helpfulness of her loving hands, will be interested to learn that on October 11th, Katherine Davis was united in marriage to Albert Leroy Lang. Two sons and two daughoers-in-law, and a married couple of Mr. Lang's trusted friends attended the ceremony.

The Rev. J. E. Werren tied the knot at his home in Cambridge. Congratulations were all the more enjoyed as a large panorama and sundry accessories reminding the happy bride of her sojourn in Center Lovell lent to the occasion a loving background of the past, while wistfully looking toward the Sunny Pacific where their future home in Los Angeles, Calif., is to be within the sight of mountains and seas —tho' grander—still, no more lovely than the views of Maine.

After the ceremony the party motored to Boston to enjoy a nuptial lunch before the happy married pair would start in the afternoon for the distant home. It is to be hoped that another summer will give Mrs. Katherine Lang's numerous friends an opportunity to become acquainted with her husband, who we are sure, is well worth becoming acquainted with.

He has taken the whole care of a large vegetable garden, beside a large berry patch consisting of strawberries, raspberries and blackberries which he keeps well pruned, setting out a new bed of strawberries each year. Mr. Stone has always been a regular attendent at the Congregatonal Church at Waterford He is truly a remarkable man.

(Communication)

Dear Sir:—

Every traveler on Waterford roads knew Charles Merrill and thanked him for his untiring devotion to the cause of good roads. One never found him loitering in the shade or idling his time (for which the public paid him) in talk. But with his faithful horse as companion and friend he patrolled his section and did what he could to make an important road smoother and easier for those who passed over it. How many other men in the community are contributing anything to help along those who pass their way? He has left a fine example of diligence and industry and of faithfulness to the trust committed to him which those who survive will do well to emulate. —G.
